
THE HOLLY

W With 6 elevations that range from 1630-1650 sq. ft. to choose from, the Holly brings together a highly functional layout with a stylish au courant design to create an exceptional family townhome. You'll fall in love with this home's large windows, single car garage and a charming covered porch at a first glance — before you've even had a chance to discover the exceptional interior. Inside, the home boasts a fresh, open-concept layout that includes a large great room, chef-inspired kitchen and conveniently located powder room on the main floor. Upstairs, homebuyers will be pleased to explore the generous proportions of the master suite, which features his and hers walk in closets and a private ensuite bathroom. The second floor also features two additional bedrooms and a spacious main bathroom. Downstairs, the unfinished basement leaves provisions for laundry facilities, an additional bathroom, and plenty of space for storage or future extended living space.
