

#### ELEVATION A

Featuring an optional in-law suite, this plan can be personalized to work for your family. An open concept living and dining area offers convenient modern living with a beautiful balcony off the front of the house.

Three Bedrooms  
2,117 sf  
with optional finished lower level  
2,587 sf

#### ELEVATION B

This elevation offers an oversized front porch and large balcony off the dining room. The window seat in bedroom three will be a much loved feature.

Three Bedrooms  
2,147 sf  
with optional finished lower level  
2,617 sf

#### ELEVATION C

The massive windows in this elevation draw in beautiful natural light and keep your home feeling light and airy. The loft on the upper floor offers additional useable space.

Three Bedrooms  
2,295 sf  
with optional finished lower level  
2,765 sf

## SORBARA

— group of companies —

Sorbara is a family-owned development and construction company focused on designing and constructing distinctive communities that help cultivate the aesthetic landscape of the neighbourhoods within which people live, work and play. Over six decades of building environments for families, individuals, companies and institutions has taught Sorbara that attention to detail in how people live is the most important element of design.

With this commitment to design excellence, Sorbara created home designs unique to Treetops. Generous outdoor living areas nurture a strong connection to nature. From distinctive elevation options to customizable features on all floor plans, every Sorbara home is different, specifically suited to the individual homeowner, but always built with a consistent dedication to quality.

The best testament to our community commitment is evident in our built form. A drive through both completed and projects under construction showcases Sorbara's commitment to our homeowners.
