Add 853 sq. ft. for Optional Finished Basement

Keep your home cozy and luxurious with an optional raised 2-sided gas fireplace between the Dining Room and the Living Room. It offers the ultimate sophisticated gathering place for all your family parties.

Homebuyers will love the connectivity of these homes, with ground floor living spaces flowing into one another to cultivate a sense of harmony and balance.

One of our most unique Designed for You features is an optional side entry providing direct access to the Basement. An additional interior door provides complete privacy from the rest of the home if desired.

This perfectly placed direct Garage access to the home provides a convenient way to transport groceries from the car, especially in cold weather.

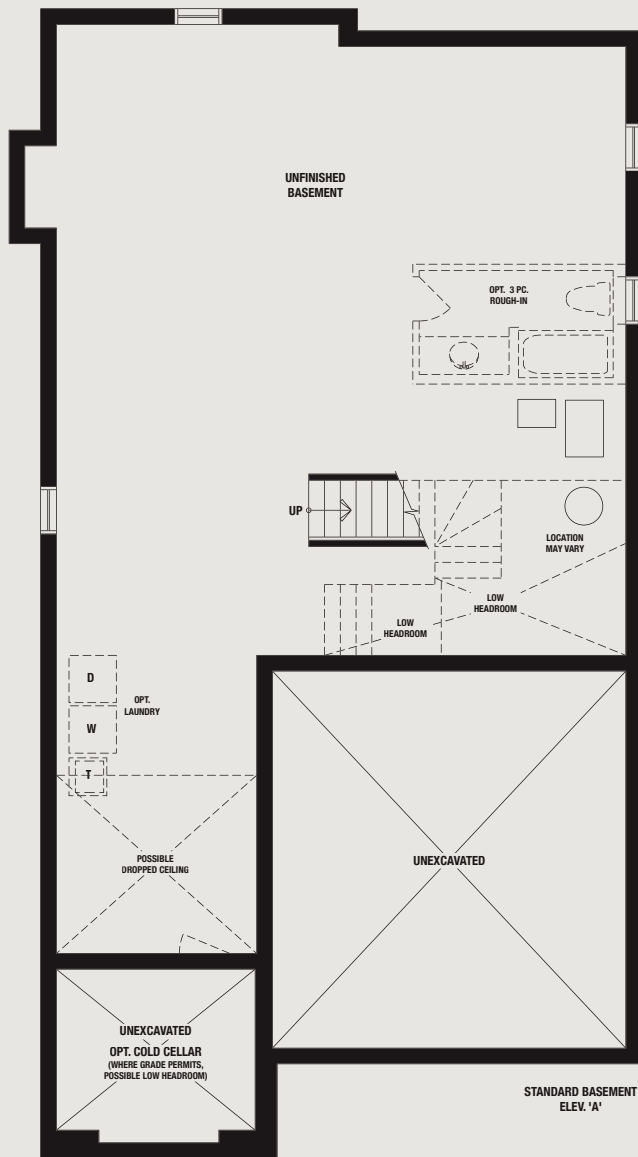

A state-of-the-art, heat-activated and zone-controlled sprinkler system provides enhanced safety and peace of mind.

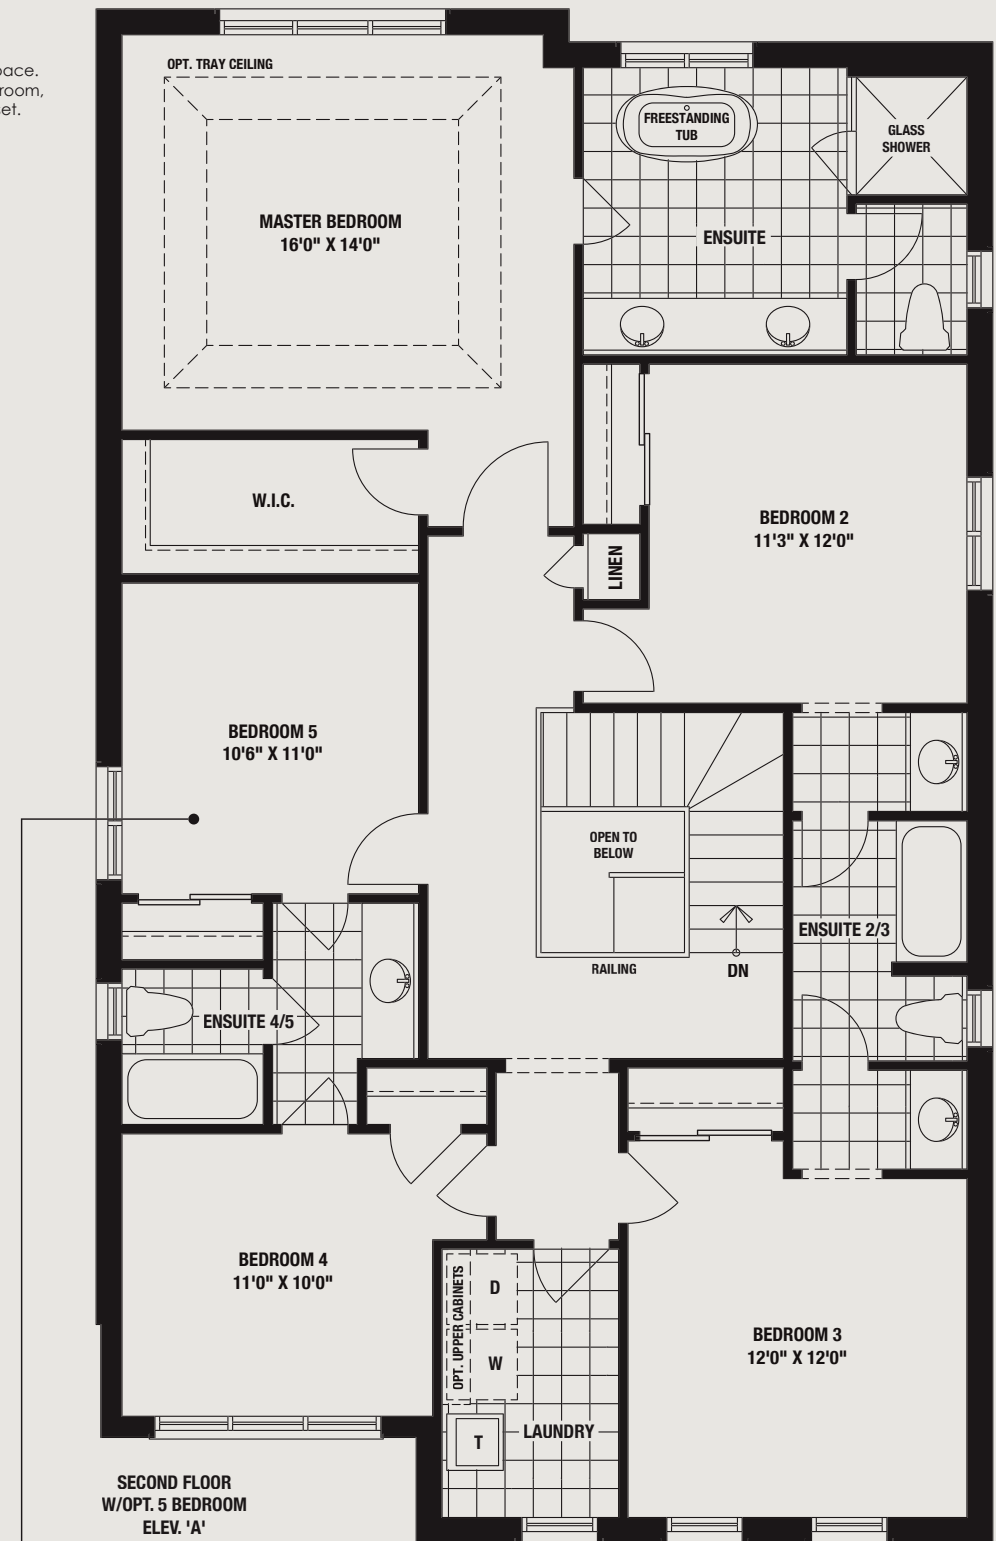

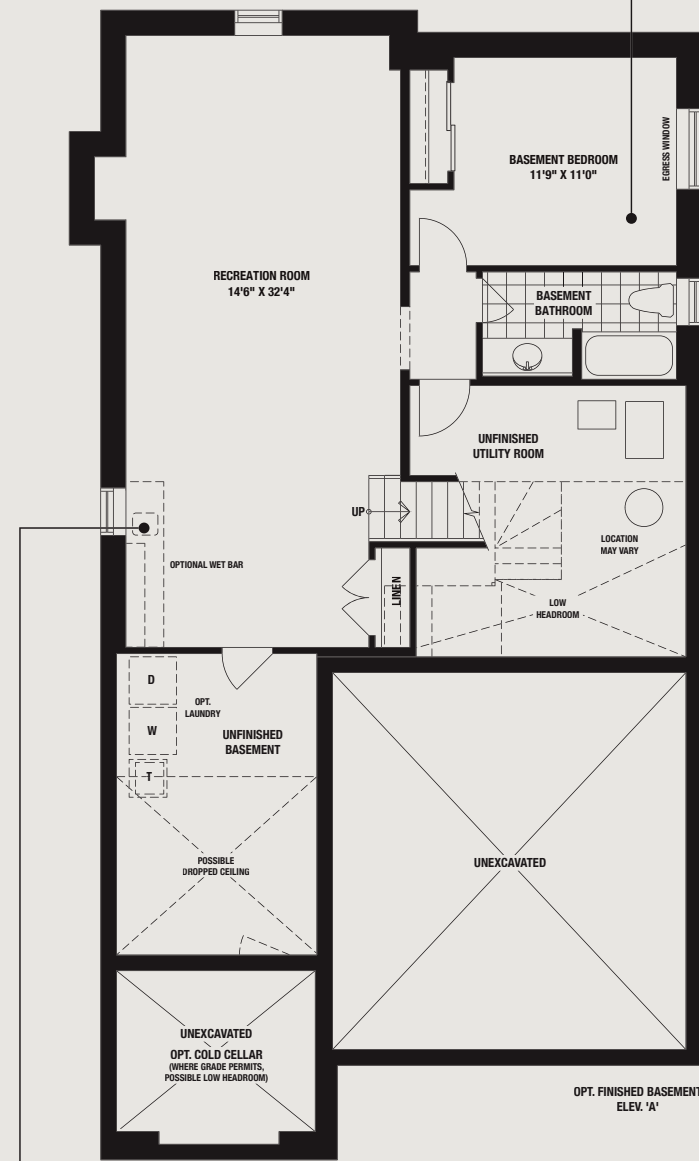

The Master Ensuite is a lavish retreat which includes a private water closet, a separate shower, a freestanding tub and dual sinks.

Enjoy the convenience of having your Upstairs Laundry just steps from your Bedrooms.

Enjoy more room to grow with this Sorbara Family Flex Space. The optional finished Basement includes a spacious Bedroom, a full Ensuite Bathroom, linen closet, and large main closet.

Our Designed for You approach allows for homeowners to change the way they use their space over time. This Recreation Room with wet bar can function as a living space for the in-law/nanny suite, or provide extra space for the whole family to enjoy.

Find another Family Flex Space option upstairs. The 5-Bedroom plan makes clever use of space to add a bedroom while still accommodating ample closet space for the whole family.
